B. Registration of a Death

Death registration procedures vary according to the nature of death:

- (i) a death from natural cause (handled under normal procedures);
- (ii) a death from natural cause requiring urgent burial; or
- (iii) a death from unnatural cause.

Details of the registration procedures are as follows:

(i) A Death from Natural Cause (Handled under Normal Procedures)

- For a death from natural cause where a registered medical practitioner had made the final diagnosis and determined the cause of death, the medical practitioner will issue the following documents for the deceased:
- “Medical Certificate of the Cause of Death” [Form 18]; and
 - “Medical Certificate (Cremation)” [Form 2] (applicable to cremation only).

- Relatives of the deceased are required to bring along the originals of the following documents and register the death within 14 days at the **Joint Office**:
 - identity card of the applicant;
 - identity card of the deceased;
 - “**Medical Certificate of the Cause of Death**” [Form 18]; and
 - “**Medical Certificate (Cremation)**” [Form 2] (applicable to cremation only).
- Upon completion of the above death registration procedure, which normally takes 30 minutes, the applicant will be issued with:
 - “**Certificate of Registration of Death**” [Form 12] (commonly known as “going-out pass”); and
 - “**Certificate of Registration of Death**” [Form 10] (commonly known as “burial permit”) (applicable to burial only).
- With the above documents in hand, relatives can apply for cremation at the **Joint Office** or apply for burial at the respective cemetery office (see Item 1C/1D).

(ii) **A Death from Natural Cause Requiring Urgent Burial**

- If urgent removal or burial of the dead body is necessary for religious or other reasons outside the opening hours of the Joint Office or the **Births and Deaths General Register Office**, the applicant can apply for the following document from the nearest police station to facilitate the urgent burial:
 - “**Permit for Removal and Burial of Dead Body**” [Form 8].
- In such case, the applicant is still required to register the death at the **Deaths Registry of Immigration Department** in the **Joint Office** after the burial. The applicant will be issued with a “**Certificate of Registration of Death**” [Form 12] after registration.

(iii) **Reported Death (Circumstances such as the Deceased was Not Attended by a Registered Medical Practitioner Before Death or Death Resulted from Accident, Poison or Violence, etc.)**

- Such a case should be reported immediately to the Police, who will in turn report it to the Coroner and conduct an investigation.
- The Police will submit a report to the Coroner, who will decide if an autopsy, investigation or inquest is necessary to determine the cause of death.

- Depending on circumstances, the Coroner may (before the cause of death is determined) order the body be buried or cremated and issue the following document:
 - “**Certificate of Order Authorizing Burial/Cremation of Body**” [Form 11] (commonly known as “burial order” or “cremation order”).
- Then the relatives can apply for cremation at the **Joint Office** or apply for burial at the respective cemetery office (see Item 1C/1D).
- When the Coroner has determined the cause of death (which usually takes 1 to 6 months), the Registrar of Deaths will register the death and notify the relatives in writing. Then the relatives should collect the following document at the **Births and Deaths General Register Office of Immigration Department**:
 - “**Certified Copy of a Death Entry**” (commonly known as “Death Certificate”).

C. Application for Cremation

(i) **Application for “Cremation Permit”**

- Upon issue of the “**Certificate of Registration of Death**” [Form 12] (commonly known as “going-out pass”) by the **Joint Office**, the applicant may also apply for the “**Cremation Permit**” [Form 3] at the same office.
- Cremation can be arranged without the “**Cremation Permit**” [Form 3] if the “**Certificate of Order Authorizing Cremation of Body**” [Form 11] (commonly known as “cremation order”) has been issued by the Coroner.

(ii) **Booking of Cremation Session**

- In accordance with the performance pledge, FEHD will provide an unallocated cremation session within the next 15 days from the day of application. When fixing the date of cremation, the applicant must ensure that the time for funeral procession ties in with the booked cremation session. The FEHD operates a chit system to facilitate the booking of cremation sessions at the counter.
- A member of the public may choose to:
 - (a) self-book the cremation session; or
 - (b) authorise a licensed undertaker or another person to book the cremation session on his/her behalf.

Details are as follows:

(a) Self-booking of cremation session

- The form “**Application for Private Cremation**” [FEHB 135] should be completed. The particulars of the hired licensed undertaker must be provided in the application form, which must also be signed and stamped with the undertaker’s chop recognised by FEHD (Applicants are encouraged to complete the application form and pre-pay the cremation fee through the “Online Cremation Application and Pre-paid System” to shorten the time spent at the application counter of the office).

All forms of FEHD are uploaded at: https://www.fehd.gov.hk/english/forms/index_forms.html for public download.

- For booking of cremation session online, the applicant will be given a token which will be used to book online through the FEHD website (http://www.fehd.gov.hk/english/cc/booking_online.html). Immediately after a cremation session is secured, payment of the required fee by credit card or by Payment by Phone Service (PPS) will have to be made online. The applicant may also opt for prepayment of cremation fee at time of issue of token.

2 Arrangements for a Funeral

The relatives may refer to the following information when arranging a funeral:

A. Licensed Undertakers (“Coffin Shops”)

- The legislation provides that a valid Undertaker’s Licence must be obtained from FEHD for the trade or business operated by a person who undertakes all or any duties connected with the cremation or burial of human cadavers.
- Currently there are around 130 licensed undertakers in Hong Kong. The list of the undertakers is available at the webpage of FEHD: <http://www.fehd.gov.hk/english/cc/lu.pdf>. (Prohibit storage of ashes within licensed premises of undertakers on List B.)
- Currently there are 7 licensed funeral parlours in Hong Kong which are also holding the licence for undertaker.
- Apart from the 7 undertakers which are also holding the licence for funeral parlour, the other licensed undertakers do not have such facilities as mortuaries and service halls. Their services mainly include the transportation of bodies, arrangement of funerals and booking of funeral parlours.
- In general, staff of licensed undertakers may assist in handling cremation or burial matters, such as:
 - application for the “Certificate of Registration of Death” [Form 12] (commonly known as “going-out pass”);
 - application for the “Certificate of Registration of Death” [Form 10] (commonly known as “burial permit”);
 - application for the “Cremation Permit” [Form 3];
 - booking of cremation session or burial location; and
 - renting of service hall and mortuary facilities.

B. Holding the Funeral in Funeral Parlours

- The present 7 licensed funeral parlours in Hong Kong have service halls and mortuary facilities for storage and handling human remains. Three of them are operated by non-profit-making organisations.
- The list of licensed funeral parlours is available at the webpage of FEHD: <http://www.fehd.gov.hk/english/cc/lfp.pdf>.

- For renting of service hall and mortuary facilities in a funeral parlour, the relatives may engage a licensed undertaker for the arrangements or make enquiries direct to the funeral parlours.

C. Holding the Funeral in Religious Venues

- Should the funerals of religious believers are to be held in religious venues, please contact the religious group concerned directly for details, or engage a licensed undertaker to make the arrangements.

D. “Farewell Services” in Hospitals

- If the deceased passed away in a hospital, the relatives may consider to engage a licensed undertaker to arrange farewell service in the hospital. In general, farewell services in the hospital are available only to patients who passed away in that hospital.
- Most hospitals have farewell rooms (or similar rooms) for the relatives to hold simple memorial rites. Afterwards, the body will be transported directly to a crematorium or cemetery for cremation or burial.

3 Disposal of Cremated Ashes

A. Ways to Dispose of Cremated Ashes

- As cremated ashes are processed at a high temperature, they will not pose any threat to public health. There are different ways to dispose of cremated ashes. The common options are as follows:
 - (i) scattering in the designated waters, please refer to Page 15 for details;
 - (ii) scattering in a Garden of Remembrance managed by the government or a private cemetery, please refer to Page 18 for details;
 - (iii) depositing at a columbarium managed by the government, please refer to Page 21 for details;
 - (iv) placing additionally in an urn grave of a public cemetery, please refer to Page 24 for details;
 - (v) depositing at a licensed private columbarium;
 - (vi) keeping the ashes at home (not more than 10 cremated ashes of deceased); and
 - (vii) using the temporary storage service for cremains of the FEHD, please refer to Page 25 for details.

B. Green Burial

Scattering cremated ashes in the designated waters or Gardens of Remembrance is meaningful practice which is consistent with the concepts of “life regeneration” and “returning to nature”.

(i) Scattering Cremated Ashes at Sea

- Scattering of cremated ashes at sea has gained popularity in recent years. Relatives can arrange their own vessels or use the free ferry service provided by FEHD for scattering the ashes in designated areas.
- Scattering of cremated ashes at sea can take place in the following 3 designated areas in Hong Kong waters:
 - East of Tap Mun;
 - East of Tung Lung Chau; or
 - South of West Lamma Channel.
- Cremated ashes of the deceased for which permission for scattering is obtained and a small amount of fresh flower petals can be scattered at sea.

(a) Free ferry service provided by FEHD:

- The ferry service is provided several times per month for scattering cremated ashes in designated waters by members of the public. The sails are scheduled for once every Saturday morning (except public holiday). Details of the service are available at FEHD webpage:

<https://www.greenburial.gov.hk/en/scattering-cremains-sea/intro.html>

- A funeral director is on board to assist the public in holding simple memorial rites.

(b) Application procedures:

- Applicants for scattering cremated ashes at sea using either self-arranged vessels or the free ferry service provided by FEHD must be holders of the “Permit to Take Away Cremated Ashes” [FEHB 153] or his/her authorized person.
- Applicants are required to complete the form “Application for Scattering of Cremated Human Ashes in Hong Kong Waters” [FEHB 198].
- At least 10 days before the intended date of ashes scattering, the applicant or the person authorised in writing is to submit :
 - a completed “Application for Scattering of Cremated Human Ashes in Hong Kong Waters” [FEHB 198]; and
 - the original “Permit to Take Away Cremated Ashes” [FEHB 153] and a copy of the deceased’s identity card,in person to either of the following **Cemeteries and Crematoria Office**:

C. Niches in Government Columbaria

- If the deceased met one of the following criteria, the cremated ashes can be deposited at a columbarium managed by FEHD:
 - a Hong Kong resident at the time of death and whose remains were cremated in a government crematorium within 3 months after death; or
 - a Hong Kong resident for at least 10 years in the last 20 years before death and whose remains were cremated outside Hong Kong; or
 - a deceased person whose remains were lawfully exhumed and cremated at a government crematorium.

(i) Application for Allocation of Extendable Niches in Allocation Exercises

- All public niches available for allocation are extendable niches since 26.4.2019. Whenever there is a new columbarium ready for commissioning, FEHD will announce the arrangements for allocation of extendable niches in newspapers and on its website and allocate the extendable niches in an open, fair and just manner. All niches under application will be allocated to applicants by drawing of lots and computer random balloting. A designated niche will be allotted to each successful applicant rather than self-chosen. Applicants have to submit their applications in accordance with the announced arrangements.
- Ashes interment period and extension of interment period
 - After allocation of a niche, the initial interment period is 20 years and can be extended at 10-year intervals thereafter upon payment of the prevailing prescribed fee.
 - On expiry of the 20-year/10-year interment period, as long as the related person(s) confirm(s) extension of the interment period and pay(s) the prevailing prescribed fee and complete(s) the procedural formalities, the use of the allocated niche can be continued.

- If a new set of ashes is added during the interment period, the related person(s) can opt for a fresh interment period of 20 years counting from the payment date for the co-location fee or opt to maintain the original interment period under the status quo. If the former option is chosen, the new interment schedule will replace the original one.
- The extendable niche arrangement is not applicable to niche that was allocated before 26.4.2019.

(ii) Application for Placing Additional Cremated Ashes of Deceased in Allocated Niches

- Applications for placing additional cremated ashes of deceased in allocated niches can be made at any time. Applicants only need to complete the “**Application for Placing Additional Cremated Ashes of the Deceased**” [FEHB 136A]. For good use of government resources, FEHD encourages the public to make optimum use of existing public niches.

- Two types of niches are available at the public columbaria i.e.:

- Standard niche (can hold the ashes of more than two deceased persons); and
- Large niche (can hold the ashes of more than four deceased persons).

FEHD has since January 2014 removed the cap on the number of sets of cremated ashes that may be placed in a public niche. Subject to application and approval obtained, the cremated ashes of the deceased person can be placed in a public niche if the subsequent deceased was in close relationship with or a close relative of the first deceased.

- If the niche to be applied are extendable niche, arrangement of its ashes interment period, extension of interment period and deposit of additional sets of ashes for these niches will be the same as the ones of new niches. The related person(s) can opt for a fresh interment period of 20 years counting from the payment date for the co-location fee or opt to maintain the original interment period under the status quo. If the former option is chosen, the new interment schedule will replace the original one.

6 Internet Memorial Service

- The public may create a memorial webpage at the Internet Memorial Service website (<http://www.memorial.gov.hk>) and upload texts, photos and videos to preserve fond memories of their lost loved ones.
- An applicant who applies for allocation of a new niche for the deceased, he/she only needs to fill in his/her email address on the application form. FEHD will then create a dedicated memorial webpage displaying the name and date of death of the deceased. The memorial webpage of the deceased will display the expiry date of the interment period and the related message will pop-up before expiry of the interment period to remind the related persons of the expiry date of the current interment period. In addition, the related persons can use a dedicated link on the webpage to update the contact list or their contact information.
- Family members and friends may create a memorial webpage for a deceased, who met any one of the following conditions:
 - cremated at a public crematorium;
 - remains scattered in a Garden of Remembrance of FEHD or designated Hong Kong waters;
 - remains kept in a public columbarium;
 - buried at a public cemetery;
 - a Hong Kong resident and whose body or cremated ashes was / were interred or kept in a Hong Kong private cemetery or private columbarium;
 - buried at the Gallant Garden/Tribute Garden;
 - cremated ashes temporarily kept in temporary storage facilities of FEHD;
 - abortuses cremated at Home of Forever Love; or
 - keeping of abortuses in the facility for keeping of abortuses of FEHD.
- Upon input of basic information (including the applicant's email address and particulars of the deceased) at the Internet Memorial Service website, a memorial webpage for the deceased will be created. Relatives and friends of the deceased can choose the layout design, write the deceased's life story, upload photos and videos, and set up various features for the memorial webpage. The webpage can be set as either 'public' or 'private'.

- The computer system of FEHD will verify the information of the deceased who was buried or kept in a Hong Kong private cemetery or private columbarium. If the information cannot be verified, the applicant may have to submit documentary proof. The application will then be handled by designated staff separately.
- By simply entering the name of the deceased, the public can search, browse and leave messages in uploaded memorial webpages that are set as open to the public.
- The Internet Memorial Service launched the mobile version (m.memorial.gov.hk) and three demonstration videos on 25 September 2011. The public may browse the mobile version of the memorial webpages and pay tribute there. Owners of memorial webpages may use the mobile version to manage their webpages.
- To enhance the service provision, FEHD launched a mobile app for "memorial.gov.hk" to facilitate mobile device users to use the service anytime and anywhere they prefer. The mobile app has functions for personalised profile settings and notifications and sharing with social media. To facilitate the public, it provides three versions, namely iOS, Android and Huawei:-

- To encourage the public to adopt digital worshipping, visitors can leave message at electronic kiosks of Diamond Hill Gardens of Remembrance and Cape Collinson Gardens of Remembrance through "memorial.gov.hk" to pay tribute or cherish the memory of the lost beloved ones.

Appendix V: An Overview of Coffins

Eco-coffins:

The use of eco-coffins can reduce tree felling and reduce emissions of pollutants during cremation. As in the case of traditional coffins, eco-coffins of different styles and prices are available for selection. Made of recycled paper, these coffins can carry a load of 150 kg or more. The designs are solemn and decent.

European style

The coffin is in diamond or olivary shape with a flat cover on the top and decoration handles on both sides.

American style

The coffin is in rectangular shape with a flat cover on the top and decoration handles on both sides. The design is simple but it gives a sense of solemnity.

Japanese style

The coffin is in rectangular shape with a half opening cover. It is usually in a dark colour with decoration handles on both sides, giving a sense of simplicity and solemnity.

Chinese style

The surface of the coffin has natural wood patterns. It adopts a strong traditional Chinese style in appearance.

Western Coffins:

They are usually made of teak wood, oak wood or synthetic wood, but there are also bronze-made coffins. Coffins made of synthetic wood are more suitable for cremation, whereas teak, oak and bronze coffins are mostly for burial.

Chinese Coffins:

They are usually made of Phoebe zhennan wood, zelkova wood, China fir wood and synthetic wood. Their prices may vary greatly according to the wood type.

- The prices of the coffins which are made of different materials range from a few thousand dollars to tens of thousands of dollars (or even more). Undertakers in general will offer a package price to provide one-stop supporting services and the price will include the costs of coffin and renting service hall. It is advisable for the public to pay attention to the various charges during selection for comparison.

Other Points to Note

- The Government maintains strict control over cremator emissions to avoid causing air pollution. Unsuitable coffins and / or the funeral objects put inside the coffin can affect the operation of cremators, which may result in air pollution.
- When selecting coffins, members of the public are urged not to choose those with dimensions larger than 710 mm (28 in) in height / 760 mm (30 in) in width / 1 980 mm (78 in) in length. The external surface of the coffin should not have any metal ornaments or plastic (e.g. Polyvinyl Chloride, i.e. PVC) attachments.
- It is advisable not to put metal or plastic objects, or expensive funeral objects into the coffin.
- Metal or plastic ornaments fixed to the external surface of the coffin must be removed and disposed of before arrival at the crematorium.
