

# PROPER USE OF INSECT REPELLENTS

Read carefully the label instructions first

Insect Repellent Instructions

Entrance

Apply right before entering an area with risk of mosquito bites

Apply on exposed skin and clothing

Use DEET of up to 30% for pregnant women and up to 10% for children\*

Apply sunscreen first, then insect repellent

Reapply only whenever needed and follow the instructions

\* For children who travel to countries or areas where mosquito-borne diseases are endemic or epidemic and where exposure is likely, children aged 2 months or above can use DEET-containing insect repellents with a concentration of DEET up to 30%.
