Family members and friends may create a webpage at the Internet Memorial Service (www.memorial.gov.hk) for a deceased person who met any one of the following conditions:

- cremation at public crematoria

- the deceased was a Hong Kong resident and whose body or cremated ashes was/were interred or kept in a Hong Kong private cemetery or private columbarium
- burial at the Gallant Garden or Tribute Garden
- temporary storage service for cremains at Kwai Chung Crematorium

Upon input of basic information, you can create a memorial webpage for the deceased person. You can self-design or select a thematic design layout, write the deceased's life story, upload photos and videos, and set up various features.

The general public can simply enter the name of the deceased person to search and browse the public memorial webpages and post condolence messages

The computer system of the Food and Environmental Hygiene Department will verify the information of the deceased who was interred or kept in a Hong Kong private cemetery or private columbarium.
