

CONTROLLING OFFICER'S REPLY

EEB(F)124

(Question Serial No. 3145)

Head: (49) Food and Environmental Hygiene Department

Subhead (No. & title): (-) Not specified

Programme: (2) Environmental Hygiene and Related Services

Controlling Officer: Director of Food and Environmental Hygiene (Donald NG)

Director of Bureau: Secretary for Environment and Ecology

Question:

Given that the Food and Environmental Hygiene Department will expedite the refurbishment or facelifting projects of public toilets under the Enhanced Public Toilet Refurbishment Programme in 2026-27, please advise this Committee of the following:

1. How many refurbishment or facelifting projects of public toilets will be implemented under the Programme in 2026-27? How many projects are in the New Territories and rural areas? Please set out the details in tabular form.
2. How many public toilets in rural areas are yet to be refurbished or facelifted? What is their percentage out of the total number of public toilets in rural areas? Is there any timetable for the refurbishment or facelifting works?
3. Is there any plan to provide additional public toilets in rural locations or at tourist spots in the Northern Metropolis to better serve visitors to Hong Kong? If yes, what are the details?

Asked by: Hon TAM Chun-kwok (LegCo internal reference no.: 37)

Reply:

- (1) The Food and Environmental Hygiene Department (FEHD) and the Architectural Services Department (ArchSD) are planning to commence the full refurbishment or facelifting projects for 105 public toilets in 2026-27, of which 95 are in the New Territories and Islands District as set out in **Annex 1**.
- (2) FEHD and ArchSD strive to commence the relevant works by the end of 2028 for the remaining approximately 100 public toilets which are yet to be refurbished or facelifted, about 60 of which are located in the New Territories and Islands District, accounting for about 10% of all public toilets in the New Territories and Islands District.
- (3) In planning for the provision of public toilets, FEHD will consider a number of factors, one of which is the need for new public toilets, for examples, the number of toilets available nearby (including toilets provided by other government departments and the private sector) for use by the public and tourists, the estimated number of users of new

public toilets, and whether the current situation can be improved by the provision of new public toilets. Another factor is the feasibility of providing new public toilets, for examples, the availability of suitable government land at the proposed location, environmental or technical constraints (including the impact of toilet facilities on the surrounding environment), electricity and water supply, etc. Other considerations for the provision of new public toilets, including the resources required as well as the views of nearby residents, local communities and District Councils, will also be taken into account. New public toilets scheduled for completion in the New Territories and Islands District in 2026-27 are set out in **Annex 2**.

**Table 1: 105 public toilets
under the Enhanced Public Toilet Refurbishment Programme in 2026-27**

(A) 19 full refurbishment projects

Serial no.	Name of public toilet	District	Address
1.	Canal Road Public Toilet	Wan Chai	Junction of Canal Road and Lockhart Road (next to Wan Chai Fire Station)
