Reply:

1. Under the staff establishment of the Food and Environmental Hygiene Department in each of the past 3 years (2023-24, 2024-25 and 2025-26), 337 Health Inspectors are deployed to 19 District Environmental Hygiene Offices across the territory. They undertake various environmental hygiene duties, including handling complaints against dripping from air-conditioners. The nuisances caused by dripping air-conditioners happen mainly in summer. To cope with the substantial increase in workload during that period of time, the Department has recruited contract staff and set up dedicated teams since 2017 to step up inspection, advising and education, as well as to take law enforcement actions targeting buildings where the problem of dripping air-conditioners is serious. The number of contract staff and the salary expenditure for the teams are as follows:

	2023-24	2024-25	2025-26 (Revised estimate)
Number of contract staff	29	39	45
Salary expenditure (\$ million)	10.07	11.76	12.48

2. The information sought is provided as follows:

	2023	2024	2025
Number of complaints received	31 135	34 742	38 037
Number of Nuisance Notices issued ^{Note 1}	3 032	6 636	8 628
Number of prosecutions instituted ^{Note 2}	86	53	22
Number of convictions secured ^{Note 3}	61	96	43

Note 1: If the source of air-conditioner dripping is identified, a Nuisance Notice will be issued to require the responsible person to abate the nuisance within a specified period.

Note 2: Prosecution will be instituted if a Nuisance Notice goes unheeded.

Note 3: Including certain cases against which prosecution was instituted before that year.
